## To the Mothers Club of Hondo and the Public Generally:

As it has been generally circulated among the members of the Mothers' Club and the public generally, that from certain remarks I had made at a meeting of the Legion of Hondo, to the effect that Mrs. Haralson had robbed the Mothers' Club out of \$17.50 when the Mothers' Club show was put on, I wish to say and state publicly that such is not the case, nor true. I, in discussing the proposal, in the meeting of the Legion, as to having a picture show feature for the benefit of the Legion and the expenses thereof, casually remarked, that I saw the C. O. D. on the picture reel box at the express office for the Mothers' Club, which was \$17.50, in opposition to the suggestion of others that it cost \$35.00, not knowing Mrs. Haralson had to pay \$17.50 in advance of shipment. It seems this discussion in the Legion meeting has been circulated around and brought before the Mothers' Club's notice, in effect that Mrs. Haralson had not dealt fairly in her agreement with the Mothers' Club in equally dividing the expenses and the proceeds of the show. All of which I wish to say is unjust to Mrs. Haralson. And as it seems that I am the cause of it from my remarks at the Legion meeting, I here now say, I had no such purpose or intention, and I am sorry such a construction has been drawn from my remarks at the Legion meeting. Mrs. Haralson holds receipts showing that the Mothers' Club Picture Show reel cost her \$35.00 and that Mrs. Haralson dealt fairly with the Mothers' Club. Trusting this will put a stop to such unjust and damaging gossip and talk about Mrs. Haralson who has done as much or more for the entertainment and good of the returned soldier boys as well as the town of Hondo than most any one else. I am  
Sincerely,  
(signed) **CLYDE HOLLAWAY.**

## Oil News.

Medina Oil Development Company's well No. 1 is down around 590 feet in the Taylor Marl with the formation getting harder and sandy. This week another good showing of oil was found at 470 feet.

Mr. Taylor resumed drilling Friday with a crew of expert drillers and he expects to work day and night until this well is completed.

Up to Thursday afternoon but nineteen ladies had availed themselves of the privilege of securing poll tax receipts giving them the right to vote at the approaching election. As the time in which these receipts must be acquired expires on Friday, October 22, all those desiring to vote must provide themselves with poll tax receipts prior to that time. We all know the ladies' penchant for "bargain days" but in this instance there will be no bargain days, no cheap receipts, one price to all, and no charge accounts. Nothing but the cold cash appeals to the collector. The nineteen receipts mentioned above, added to the one hundred and five paid by the ladies before the enactment of the recent law, makes a total of 124 ladies who have qualified as voters at the coming election. It is quite probable there will be somewhat of a rush by the ladies for receipts before the expiration of the time limit next Friday.

Plans for the big celebration of Nov. 11th are being perfected now by the American Legion. 10

## Carle-Windrow.

A pretty wedding was solemnized last Tuesday afternoon, Oct. 12th at 5:30 at the First Baptist Church, when Miss Lela Windrow, eldest daughter of Mr. and Mrs. W. H. Windrow, became the bride of Mr. George R. Carle, in the presence of a large number of relatives and friends. Rev. A. S. Allen, pastor of the church officiated.

Loving friends had tastefully transformed the church into a bower of beauty. Pot plants and ferns formed a bank about the pulpit with an arch entwined with ferns and bride's wreath under which the wedding party was met by the pastor.

Nuptial music and wedding marches were played by Mrs. Maryin Beal, pianist of the church. Miss Tommie Smith of San Antonio, very affectively sang "At Dawning." The bridal party entered the church to the strains of Lohengrin's Wedding March and during the ceremony "Flower Song" was rendered.

Miss Ruth Windrow, bride's maid and sister of the bride, who entered first with the groomsmen, Mr. Clarence Van Fleet, wore a gown of Copenhagen blue satin with touches of gold and a hat to match, and wore a corsage bouquet of Ophelia rose buds. The Matron of Honor, Mrs. Newell Woods, followed. She wore a dress of taupe grey satin and hat to match and wore a bouquet of rose buds. Next came the maid of honor, Miss Irene Hudspeth, wearing a gown of navy charmeuse with hat to match and bouquet of rose buds.

The youthful bride was beautiful in a reindeer tricot suit with accessories to match and bouquet of white rose buds and fern. She entered with her father who gave her in marriage. They were met at the altar by the groom and his best man, Dr. O. B. Taylor.

Immediately after the ceremony a reception for the immediate families and bridal party was held at the home of the bride's parents. To avoid the pranks of their friends, who gathered at the depot to see them off, the newly married couple went speeding to San Antonio by automobile.

After a brief honeymoon of two weeks, which they will spend at various parts of the state, Mr. and Mrs. Carle will be at home in San Antonio.

## Berry-Miller.

A quiet wedding was solemnized Sunday evening, Sept. 26th, at 7 o'clock at the First Methodist Church, Corpus Christi, when Miss Estelle Berry and Mr. Herman Miller Jr. were united in marriage. Only the immediate relatives of the contracting parties were present. Rev. Buchanan officiated.

After the ceremony the couple immediately left for Houston, Galveston and other points before returning to Robstown to make their home.

The young couple is highly respected by all who know them.

Mr. Miller is one of Robstown's young farmers and has many friends.

Mrs. Miller is from Hondo but has spent the last two years in Robstown and is highly respected by all who know her.—Clipping from Corpus Christi Paper.

An alarm of fire about 9:00 o'clock last Sunday night called the fire laddies to the home of L. Barrientes, in the southwestern part of town. From the information we have been able to obtain, it seems Ed. Barrientes entered the garage with a naked light; gasoline stored in the garage became ignited and for a few moments it looked as though a serious conflagration was imminent. Ed. made a heroic effort to extinguish the blaze and in doing so had his hands horribly burned and while his suffering has been intense he is recovering and his friends hope he will soon regain normal use of the injured members. The loss caused by the fire was negligible.

The football game on the local gridiron last Saturday between the teams of the Pearsall High School and Hondo High resulted in a score of 13 to 0 in favor of the home boys. The visitors battled hard for victory but they were out-classed and the result of the contest was never much in doubt from the beginning. The Uvalde football aggregation is scheduled for a game here today, and as the team is reputed to be a strong one it is probable our boys are going up against a hard proposition. Go out and root for them.

If you need cement call on Hondo Lumber Co. Carload just received. 11

## Attention, Trash Burners!

As chief of the Fire Department I must protest against the custom of the people of the town in burning the accumulation of rubbish on their premises. Some of the people make great bon-fires in disposing of their rubbish, putting the property of their neighbors in great jeopardy. I must insist that this practice be stopped. Trash and other refuse that accumulates on premises should be carted away and not burned as is now the custom. If the present practice is persisted in it is going to result in a fire that will cost the town more in a few minutes than the carting away of rubbish would cost in years.

Respectfully,  
C. J. BLESS,  
Chief of the Fire Department.

It would be advisable for all those knowing themselves to be delinquent for state and county taxes to call on the collector and make immediate settlement. Suits for the collection of all delinquent taxes are to be filed and payment enforced. In many instances, in case judgments are rendered against the delinquents, the costs will amount to more than the taxes due. "So it would be a matter of wisdom to call on the collector and make settlements."

The services next Sunday will close the Conference year, 1919-20. We expect to leave on the forenoon train next Monday. The West Texas Conference will meet at San Marcos on Wednesday at 9:00 a. m., October 20. The appointments for the next year will likely be read on the following Sunday evening, or Monday forenoon. We are glad to state that our finances will be in good shape; also that we have received twenty five on Professions of Faith and eighteen by certificate. We expect to hold a Church Conference at the close of the morning sermon. We want our members to make a special effort to be present.

We, also, heartily thank the people for the many tokens of appreciation that have been shown to us. Truly "The lines have fallen to us in pleasant places". In our thirty-five years in the pastorate, we have never served a Church for which we had a higher appreciation than our Church at Hondo.

## "IS WORTH WEIGHT IN GOLD", HE SAYS.

Willhide Was So Run Down His Condition Alarmed His Wife And Friends.

"Tanlac has been worth its weight in gold to me," said Walter S. Willhide, a well-known employee of the Federal Rubber Co., Cudahy, Wis., and who lives at 75 Howell Ave., Milwaukee. "My wife and friends were really alarmed about me, but now I never felt better in my life."

"I don't believe anyone ever suffered more from stomach trouble than I did for five years," he said. "After every meal gas would form and I had such sharp pains across my heart I could hardly breathe. Dull, heavy, dizzy headaches would come on me and I had to lie right down or I would fall over. My back ached and I could hardly bear my clothes to touch them. I was nervous as a cat and the least noise at night would excite me. The muscles in my legs would cramp at night until I would have to get up and walk the floor to get relief; I lost fifteen pounds, my appetite was completely gone and I was so weak I could hardly do my work."

"Only two bottles of Tanlac have rid me of every one of my troubles. I eat anything and never have an uncomfortable feeling in my stomach, my nerves are like steel and I never have a headache, dizzy spell or pain of any sort. My friends are congratulating me on how well I look and I certainly feel fine."

Tanlac is sold in Hondo by W. H. Windrow; in Castroville by Joseph Courand & Co.; and in Dunlay by Louis A. Haby.

## FINGER PRINTS DO CHANGE

Experiments Show That "Ridges" That Cover One's Fingers and Toes "Weather" With Age.

The curious and elaborate patterns of tiny ridges that cover one's fingers and toes remain unaltered through life, but recent study has shown that with advancing age the ridges show signs of "weathering," and are crossed here and there by cracks.

A comparison made of the finger prints of Sir William Herschell, dated 1861 and 1914, proved that there had been no change whatever in the patterns during the intervening period. It was he, by the way, who originated the finger print idea as a safeguard for documents. The notion of using them for the identification of individuals was developed later.

For purposes of identification, toe prints are just as good as finger prints. The entire sole of the foot, as well as the whole palm, is covered with the same sort of patterns, and in maternity wards of hospitals babies' foot prints are commonly filed to prevent mixups.

## No Worms in a Healthy Child

All children troubled with worms have an unhealthy color which indicates poor blood, and as a rule, there is more or less stomach disturbance. GROVE'S TASTELESS chill TONIC given regularly for two or three weeks will enrich the blood, improve the digestion, and act as a General Strengthening Tonic to the whole system. Nature will then throw off or dispel the worms, and the Child will be in perfect health. Pleasant to take. 60c per bottle.

## Its Description.

"How could a rich florist's pile best be described?"  
"I should think it might be called a flower barrel."

A clear, colorless liquid that will heal wounds, cuts, sores and galls is the latest and best production of medical science. Ask for liquid Borozone, it is a marvel in flesh-healing remedies. Price, 30c, 60c and \$1.20. Sold by W. H. Windrow.

## The Main Question.

"Should Lefthook or Reflex win that prize fight?"  
"Lefthook should have the best of the argument."  
"I am not interested in who has the best of the argument. How about the fight?"—Detroit Free Press.

To remove bilious impurities in the system and be made internally clean and healthy, you need the fine tonic and laxative properties of Herbine. It acts quickly and thoroughly. Price, 60c. Sold by W. H. Windrow.

## THIS IS CERTAIN.

The Proof That Hondo Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills have brought lasting results.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonials. They say time has completed the test.

J. A. Hay, farmer, Hondo, says: "Some years ago when I was working on the street cars the constant standing which the work necessitated resulted in pains across my back and kidneys. I had always heard Doan's Kidney Pills highly spoken of so I decided to try them. Doan's did me a world of good, entirely removing the trouble." (Statement given May 29, 1915).

On May 13, 1919 Mr. Hay added: "I think just as much of Doan's Kidney Pills today as ever. I haven't had occasion to use them since they cured me in 1915."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hay had. Foster Milburn Co., Mfgs., Buffalo, N. Y.

## OH, DEAR! MY BACK!

Merciful Heavens, how my back hurts in the morning!" It's all due to an over-abundance of that poison called uric acid.

The kidneys are not able to get rid of it. Such conditions you can readily overcome, and prolong life by taking "Anuric" (anti-uric-acid). This can be obtained at almost any drug store, in tablet form.

When your kidneys get sluggish and clog, you suffer from Backache, sick-headache, dizzy spells, or twinges and pains of lumbago, rheumatism or gout; or sleep is disturbed two or three times a night, get Dr. Pierce's Anuric, it will put new life into your kidneys and your entire system. Send Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., ten cents for trial package.

STROUD, OKLA.—"I suffered for a year with kidney trouble. I saw Dr. Pierce's advertisement and wrote for a trial package of 'Anuric.' It helped me so I went to the drug store and bought a supply of Dr. Pierce's medicines. The 'Golden Medical Discovery' and the 'Pleasant Pellets' cured me of bowel trouble, and the 'Anuric' of the kidney trouble and rheumatism. I am cured—can do my work and it does not hurt me at all."—MRS. MARY JANE FISHER, Route 5.

The bans of Henry Haller and Miss Lorine Groff were announced in the Catholic church Sunday, the wedding to take place Oct. 26th.

## The Mating and Breeding of Poultry.

BY HARRY M. LAMON, Senior Poultry man, Bureau of Animal Husbandry, U. S. Department of Agriculture, and ROBERT SLOCUM, Poultryman, Bureau of Animal Husbandry, U. S. Department of Agriculture.

Many books have been published on the various phases of poultry-keeping, but in this new volume the authors have given to the public the most valuable contribution in the form of poultry literature. As the name implies, the book deals primarily with mating and breeding, its principles, practices and laws as applied to all varieties of standard-bred chickens, bantams included. It outlines and discusses the fundamental principles of breeding, describes in detail the desirable characteristics of all standard varieties, both male and female, defects to be avoided and the necessary procedure and proper matings to make in order to produce the very largest number of birds that approach the standard ideal. It tells you just what sort of birds should be selected for specific results, the kind of male and female to mate together to overcome prevalent defects; in fact it takes up step by step the many intricate problems of breeding and points out how to overcome them. It may properly be called the Key to the Standard, so completely does it cover the mating and breeding of every variety of chickens described in the American Standard of Perfection, supplying the very information necessary to produce high-class exhibition specimens.

There are also chapters on conditioning for the show room and breeding for increased egg production. The former subject is discussed frankly and plainly, and tells how to put a bird in the best possible show condition. You are also given the latest and best information on egg production, outlining in a definite manner how to proceed with such stock and facilities as you may have on hand to secure a higher average egg yield.

It contains 368 pages, and nearly one hundred lifelike illustrations made from actual photographs, together with charts indicating the various sections of a fowl as well as ideal and defective heads, tails, combs, and other important sections. A complete list of common breeding terms is given and the book is thoroughly indexed from cover to cover.

Nothing like it has ever written or published heretofore, being absolutely new, original and authentic. No breeder should be without it as it will serve as an instructor and guide for both, amateur and expert, and a working companion for every earnest poultryman.

Profusely illustrated, 368 pages, 5 1/2 x 8 inches, substantially bound in cloth. Net, \$2.50 from the publishers, ORANGE JUDD CO., 315 Fourth Ave., New York, N. Y.

## INDIGESTION

If you are ever troubled with indigestion, Chamberlain's Tablets will do you good. They strengthen the stomach and enable it to perform its functions naturally. There are hundreds of people who have been restored to health and happiness by the use of Chamberlain's Tablets. When you feel dull and languid after eating you may know that your digestion is faulty, unless you have eaten more than you should. Belching, sour stomach, bloating are symptoms of indigestion and are relieved by taking Chamberlain's Tablets as directed. Indigestion is usually accompanied by constipation and is aggravated by the use of Chamberlain's Tablets. Chamberlain's Tablets are also most efficacious in the treatment of constipation. Sold everywhere.

## Colds & Headache

"For years we have used Black-Draught in our family and I have never found any medicine that could take cold and headache," writes Mr. H. A. Stacy, of Bradyville, Tenn. Mr. Stacy, who is a Rutherford County farmer, recommends Black-Draught as a medicine that should be kept in every household for use in the prompt treatment of many little ills to prevent them from developing into serious troubles.

## THEDFORD'S BLACK-DRAUGHT

"It touches the liver and does the work," Mr. Stacy declared. "It is one of the best medicines I ever saw for cold and headache. I don't know what we would do in our family if it wasn't for Black-Draught. It has saved us many dollars. I don't see how any family can hardly go without it. I know it is a reliable and splendid medicine to have in the house. I recommend Black-Draught highly and never without it."

# 10 Reasons Why you should buy a 6x12 Allis-Chalmers General Purpose One Man All-year-round Tractor.

The 6x12 Allis-Chalmers will do any of the following in a day:

1. Plow 5 to 8 acres.
2. Disk 25 acres with a 7-foot disk.
3. Harrow 50 acres with 15-ft. harrow.
4. Plant 25 acres with a 2-row Planter.
5. Cultivate 25 acres with a 2-row Cultivator.
6. Drill 30 acres with a 10 foot Grain Drill.
7. Harvest 15 ac. with a Corn Binder.
8. Harvest 30 acres with an 8 foot Grain Binder.
9. Harvest 35 acres with an 8-foot Mower.
10. Rake 50 acres with a 12-foot Rake.

## The 6-12 General Purpose Tractor

meets all of your requirements if you are a small farmer, or if you have big acreage the 6-12 is an auxiliary to your large plowing tractor. It embodies more practical features of design, better construction and a greater sturdiness than any other tractor of similar design.

The convenience of the hitch, adapted to any standard implement, proved it to be a one man tractor that would do real work on any farm, and real economy in operation reduces the cost of farm operation and changes losses into profits.

Its initial cost is typical of its operating cost, which are so low that the ownership of this tractor is brought within the reach of every farmer.

## Philadelphia Class Meeting.

Ten members of the Philathea class enjoyed the hospitality of Mrs. E. E. Scott Tuesday afternoon, Oct. 5th, where they met in their usual Bible study.

The meeting was conducted by the president, each member answering to roll call with a verse of Scripture.

Rev. Alexander explained the lesson which was one of the most beautiful chapters of the Bible, being the tenth chapter of St. John.

After the lesson Mrs. Scott served refreshments consisting of delicious cake and orange ice.

The class will meet next Tuesday with Mrs. B. Meriwether.

Each member is requested to ask a new member as a membership campaign is now in progress.

## MOTHER HAD PRACTICAL EYE

Of Course Roses Were More Romantic Than Groceries, but in These Hard Times—

Every morn he sent her violets, or roses, or some sweet bloom. And all the time the price of food was going up and up and up.

After a few weeks of it the young lady put on her thinking cap and sat down at her writing table.

"Dearest, darling boy," she began. "Of course I love the flowers you send me, but doesn't it seem rather a waste while everything is so dear, and mother says wouldn't it be better if you could, perhaps, send half a dozen new-laid eggs and a loaf of bread and some tea tomorrow instead, and she wants particularly to let you know that she can only drink China tea because of her weak digestion. Heaps of kisses. "Your own NEILL."

## GAINED HIS HEART'S DESIRE

Naturally Harold Was Pleased, Though Young Lady's Statement Might Seem Ambiguous.

On entering his club one evening a young Philadelphian was accosted by a friend, who exclaimed:

"Why, Harold, you are positively beaming! What's up?"

"I am in the greatest luck imaginable," responded Harold. "You see, I have been attentive to a pretty Lansdowne girl for more than a year. During all of that time she would never admit that she loved me; she would only say that she respected me. But now, old chap, congratulate me, for last night she confessed that she respected me no longer—that she loved me!"

## RED CROSS EXTENDS RELIEF TO POLAND

More than \$5,000,000 has been spent by the American Red Cross in aiding the stricken people of Poland. The organization has nursed the sick, fed the starving, clothed the naked, sheltered the homeless, schooled the children and cared for the orphans there. It has conducted a relentless fight against typhus, cholera and other terrible diseases. So today millions of men and women in that resurrected nation speak in grateful appreciation of "The Greatest Mother in the World."

Nearly 200 American Red Cross workers are now engaged in relief activities in Poland. Four large relief bases are in operation and eleven mobile units are in the field. During the last twelve months this organization was largely instrumental in the re-establishment of a million refugees at a cost for general relief of more than \$1,000,000. Last winter one-half million war orphans were aided materially, and since then a series of large orphanages have been established to give them permanent care.

But for American Red Cross aid, officials of Poland declared recently, millions of people in that country would have perished of disease, exposure or starvation the last eighteen months. And the work there must be kept up for another year.

## VOTE AND WORK FOR THE SCHOOL AMENDMENT ON NOVEMBER 2ND.

(By Annie Webb Blanton, State Superintendent of Public Instruction.)

### NEED OF MANY WORKERS.

It is when we try to inform the people of Texas as to the merits of any measure that we realize that Texas is not really a state—it is an empire. Compare the Lone Star State, with its 252 counties, with its neighbor, Oklahoma, which has 77 counties, or with tiny Delaware, which has three. It soon becomes obvious that to give adequate publicity to even the most meritorious measure, an army of workers is needed.

When we remember, further, that the general attitude in Texas has been to vote against constitutional amendments, we realize that, the patriotic citizens of Texas must go out into the highways and byways to arouse the necessary enthusiasm for the educational amendment to make it the notable exception to the rule its friends all predict it will prove to be.

### NATURE OF THE AMENDMENT.

Texas now has a district tax limit of fifty cents on the hundred dollars of property valuation. Only two states, Texas and Virginia, have so low a limit. Half of the states of the Union have no limit on the tax that districts may vote for school purposes. The unjust side of this tax limit is that while large cities are exempt from this provision, the village school and the country school are shackled by its terms. The proposed amendment to article 3 of section VII of the constitution will grant the same privilege to all schools—it will permit the country school district as well as the city to vote for its schools such support as it deems necessary.

### THE AMENDMENT DOES NOT RAISE TAXES.

The proposed amendment does not raise taxes, nor does it permit any school board to increase taxes. It simply leaves each district free to continue its present support to its schools, or to increase this support, if it chooses. Before any tax can be increased, the rate must be decided by a vote of the taxpayers of the district. This amendment is, therefore, a measure of local self-government.

### ATTITUDE OF THE POLITICAL PARTIES.

The state democratic convention of 1929, at its recent meeting in Fort Worth, endorsed the passage of this amendment as a part of the platform of the democratic party. The republican candidate for governor, in a recent address, stated that he would prefer that the people of Texas should fail to vote for him than to fail to vote for this amendment. At this writing, other parties have not expressed their attitude.

### A MISTAKEN IMPRESSION.

A few persons have expressed the opinion that, since their districts receive from the state more than they pay to the state, it would be best to vote against the amendment, and let the state support their schools. The mistake in this is (1) that the state can not and will not continue to support those who do not help themselves and (2) that such an attitude is condemned by most of the right-minded patriotic citizens of the state. The four million dollar appropriation made by the legislature to tide over the emergency until the amendment can pass. The legislature will have no convenient surplus next year, to appropriate; for the tax rate has been lowered. Moreover, many members of the legislature have declared that, if the people vote down this amendment in November, they will make no more appropriations to the schools from the general revenue. Some of them have asserted that they will even vote to discontinue the two-million-dollar appropriation for rural schools. If the amendment fails to pass, the schools will have no recourse. Two thousand of them closed their doors last year. Our teachers will flock to other states, where a living wage is offered. Many have already gone.

### STATE SUPPORT THE SAME FOR CITY AND COUNTRY SCHOOLS.

The politician frequently harps on the difference in support of country and city schools. This difference lies in local support. The state gives the same per capita for the country and the city child. It favors the country child, in that it makes a special appropriation of two million dollars for rural schools. While Texas stands tenth in state support of schools, it ranks as forty-fourth in local support. Shall this continue?

### OUR RANK IN EDUCATION.

The Russell Sage Foundation in its recent investigation of all the states of the Union ranks Texas as thirty-ninth in education. Shall a state that is first in size, first in agricultural products, third in production of oil, and seventh in wealth be satisfied to remain thirty-ninth in education?

### DANGER TO DEMOCRACY.

Texas is about ten per cent illiterate. Twenty-five per cent of our children do not advance beyond the fourth grade. The average is the sixth grade. That means that, in future, we shall have a sixth-grade citizenship. The only safeguard of the democratic institutions founded by our forefathers, the best protection against bolshevism, the wisest economy for the state, is education. Give the country boy and girl a fair chance! Work and vote for the Better Schools Amendment on November 2nd.

### Why Not a Fighting Chance?

There is none of America's boasted "equality of opportunity" for the children of Texas today.

Two boys, let us say, are born into the world, equal mentally, physically, and morally.

One goes to school in a shanty, presided over by a poorly paid, poorly educated girl in her "teens" who has so many "grades" that real teaching is impossible. The boy is without the advantages of good books, manual training shops, experimental apparatus, physical examination, physical training, or the inspiration of a well balanced, cultured teacher of high ideals.

The other boy attends a well-supported two or three-room country school, presided over by professional-trained, experienced teachers. Later he is sent to the consolidated rural high school made possible by the forethought and progressiveness of the community's patrons and trustees. This school is equipped with a good library, shops, gymnasium and a plot for experimental farming. There is a physical director and students are examined so that any incipient eye, nose, throat or other bodily trouble is arrested before becoming chronic.

The two boys, born "free and equal," in neighboring communities reach the age of 24. One, possessing the assurance that is the hand-maiden of wholesome knowledge, has developed into a vigorous, contented, progressive, dependable farmer; an honor to his community, his state, and his country.

The other is a shiftless, diseased, dissatisfied, shame-faced ne'er-do-well, a burden to his family and a menace to his community.

Whose is the blame?

Remember that the difference in support of schools rests with the local patrons, not with the state.

The state gives the same per capita to every child in Texas; but it favors the country child in that it makes a special appropriation of \$2,000,000 for rural schools.

### "Why Can't We Have Good Schools in the Country?"

One of the school supervisors of the state department of education recently talked to a young girl on the train, who lives on a farm in the black land belt. She was a girl of about fourteen, whose square little body and straightforward sincerity of eye indicated unusual physical and mental strength. She said she loved her farm home although the work of cooking, canning, washing and ironing, sewing and sometimes working in the field was heavy. She did not mind the work, but she wanted more than anything to go to school in order that she might be a teacher.

The year before she had finished the sixth grade which was as high as the school in her district went.

## NURSING SERVICE IS RAPIDLY EXPANDING

This American Red Cross Work Flourishing in Small Towns Throughout Country.

More than 37,000 graduate nurses have been enrolled in the American Red Cross to date and its department of nursing is daily increasing this enrollment.

The department of nursing has been authorized to maintain an adequate reserve of nurses for the army and navy. It will continue to supply the needs of the United States Public Health Service to which it has assigned more than 1,000 nurses in the last year.

It will assist in establishing proper nursing service in foreign countries where the American Red Cross has organized hospitals, dispensaries and schools for nurses. Courses in home hygiene and care of the sick have been started for thousands of women who have never received any education in this direction. Rural nursing which was in its infancy a short while ago has been put ahead at least a decade through the work of the department of nursing and local Red Cross chapters.

Public health nursing has been extended to many rural communities and now flourishes actively in hundreds of small towns and counties. Nearly a thousand efficient nurses have already been assigned to this kind of work.

The department of nursing is uniting with other organizations in a year's campaign in recruiting nurses for training schools, in educating the general public as to standards of nursing education and in showing communities their responsibility toward schools of nursing. It will endeavor to meet all these needs as well as to continue the enrollment of dietitians who will be utilized as instructors in home dietetics, in developing nutritional clinics, and in supplying dietitians for the United States Public Health Service and the civilian hospitals.

The Nursing Service will continue to offer to women and young girls the opportunity of securing instruction in home hygiene and care of the sick in every community in the country. This instruction has not only laid the foundation for public health but in some places has given impetus to the establishment of hospitals and community school houses.

"As a community profits by the work of the nurse," says Miss Clara D. Noyes, director of the department of nursing, "it is logical that the community should be aroused to its responsibility. The American Red Cross stands ready to help in a general campaign of recruiting and must have the support, sympathy and understanding of the medical profession as well as the intelligent co-operation of the people at large."

## HOME SERVICE FOR EVERYBODY IN NEED

Do you know what the present day Home Service of the American Red Cross is?

Many people do not know that, besides completing the work for ex-service men, especially the disabled, it provides the same neighborly service to families in general that it formerly gave families of soldiers, sailors and marines.

"Home Service covers a wide and varied field," says Frederick C. Munroe, general manager of the American Red Cross. "It gives aid to families in solving such problems as budget planning, marketing, tiding over times of financial stress, keeping children in school, helping crippled children, widowed and deserted mothers, children backward in school and children in conflict with the laws. It renders service to the homeless and transient, to the illiterate, to tenement dwellers, to the unemployed, and gives friendly assistance and advice to foreign speaking groups."

In addition to helping families in the solution of their own problems, Home Service helps in strengthening the weak spots in the social life of communities. It joins hands with others to make communities safer, healthier and happier.

Organizing action along lines in which the community is already interested is one of the objects of Home Service. It has established community meetings, patriotic celebrations, pageants and picnics. Rest rooms, recreation facilities, play supervisors and moving pictures have been provided. Through Home Service other agencies are influenced to bring about improved commercial amusements and better school facilities and to promote traveling libraries as well as to secure county agricultural and home demonstration agents.

If you need assistance at any time, go to the secretary of the nearest Red Cross chapter and describe the situation. Your confidence will be sacredly respected and every possible effort will be made to aid you.

### American Red Cross Roll Call.

The Fourth Annual Roll Call of the American Red Cross will be held this year from Armistice Day, November 11, to Thanksgiving Day, November 25, inclusive. During this period the men and women of the United States will pay their annual dues and renew their membership.

## FIRST AID TRAINING TO MEN AND WOMEN

American Red Cross Is Teaching Hundreds of Thousands Life-Saving Methods.

The purpose of instruction in First Aid to the injured offered by the American Red Cross is to train men and women to administer First Aid treatment promptly and intelligently when emergencies demand it. First Aid treatment is not intended to take the place of a physician's service. A surgeon should always be summoned as a precautionary measure where there is an injury of any consequence, but when one cannot be secured a few minutes' delay may mean a fatality. In such a case a person trained in First Aid is invaluable not only to the individual, but through him to the community in which he lives.

There is perhaps no way of ascertaining the number of deaths or serious disabilities which result from lack of proper safeguards or prompt emergency treatment. It is safe to assert they number thousands daily. There can be no doubt that the application of First Aid methods to each case would immeasurably lighten the country's toll of suffering and death.

The dissemination of First Aid training and information has already produced a far-reaching and beneficial influence in the prevention of accidents on railroads, in mines and in great industrial concerns.

The benefit of a widespread knowledge of First Aid in the event of a great disaster, such as a train wreck, an explosion, an earthquake, etc., is obvious. Laymen who have had First Aid training can render efficient assistance. Many lives may depend upon such emergency care.

Red Cross First Aid work includes (1) the formation and conduct, through Red Cross chapters, of classes for instruction in accident prevention and First Aid to the injured among men and women in all communities and in every industry; (2) the introduction of courses of instruction in high schools and colleges.

The Red Cross is prepared to supply First Aid books and equipment at reasonable prices.

Every person in this country able to do so should, in his own interest, receive Red Cross First Aid instruction. Information about the course and instruction classes may be had at the nearest chapter headquarters.

### Playing the Game.

"How must I conduct my campaign?" asked the inexperienced candidate.

"Promise 'em anything," said the manager.

"But suppose I promise something I can't perform and the public holds me to strict accountability?"

"If you get elected you'll want to run again, won't you?"

"Of course."

"Exactly. When your first term is ended you can tell the voters you didn't have time to put through all the great reforms you had set your heart on, and they must send you back to finish the job."—Birmingham Age-Herald.

## JUNIOR RED CROSS WORKING AT HOME

Production of Sound American Citizenship the First Aim, Says Dr. Farrand.

On the badge of every member of the Junior Red Cross are the words "I Serve." That tells the story of the school children's branch of the American Red Cross and its efforts to bring happiness to children throughout the world.

Realizing that the time never was so propitious as right now for teaching the highest ideals of citizenship, the entire present program of the Junior Red Cross has been framed under the very inclusive phrase, "Training for Citizenship Through Service" for others. Since the Junior Red Cross is the agency through which the American Red Cross reaches the schoolboys and the schoolgirls, all its activities are designed to come within the regular school program, and without creating new courses or increasing the number of studies to lend its aid in vitalizing the work of the schools.

"The thing that is needed," says Dr. Livingston Farrand, Chairman of the American Red Cross Central Committee, "is not a perpetuation of the Junior Red Cross, but the training and breeding of sound American citizenship inspired by the true, fundamental ideals of sound democracy. One of the great contributions in making the Red Cross a contributor to better citizenship in our American democracy is the realization that after all the sole hope of any nation is with the children of the country."

The plan of organization of the Junior Red Cross makes the school—public, parochial and private—the unit, not the individual pupils. Mutual service, helpful community work such as clean-up campaigns, care of the sick, promotion of health regulations, participation in civic and patriotic movements—all these creative agencies designed to translate into life and action the regular school program are parts of the machinery which the Junior Red Cross places at the disposal of the school authorities.

Graded study courses giving practical methods of civic training, supplemented by pamphlets and helpful suggestions, are supplied to the local schools by the Junior Red Cross. An elaborate plan for promoting an interchange of correspondence between children in different sections of the United States as well as with children in foreign lands is being devised and will take a prominent place in the established classroom program.

In promoting the general cause of child welfare, Red Cross courses in home hygiene and care of the sick, first aid, and dieting may be established in all Junior Red Cross Auxiliaries.

The ideals and the objective of the Junior Red Cross are embodied in the pledge of service which the pupil takes when he signs the membership roll and pins on his coat the Junior's badge. The pledge which binds together service and citizenship reads:

"We will seek in all ways to live up to the ideals of the Junior Red Cross and devote ourselves to its service."

"We will strive never to bring discredit to this, our country, by any unworthy act."

"We will revere and obey our country's laws and do our best to inspire a like reverence and obedience in those about us."

"We will endeavor in all these ways, as good citizens, to transmit America greater, better and more beautiful than she was transmitted to us."

At the foundation of this school program of the Junior Red Cross is a great love for America's children.

### His Inspiration.

When A. M. Dockery, now an assistant postmaster general, was governor of Missouri he was at one time called upon for an impromptu speech.

"I am not prepared to make a speech," he stated, "and must emulate the example of an old negro preacher. One Sunday morning this preacher took his pulpit and announced, 'Dis mawnin', bredderen and sistern, I mus' depend upon de inspiration ob de Lawd faw mah sermon, but next Sunday I hopes to come bettah prepared!'"
